

GDCTA Sponsored Kudzu Klinik
April 14-15, 2007
Dressage with Chris Krowchuk
at Camelot Farm in Moreland, GA

The Kudzu Klinik program is an opportunity for GDCTA members to participate in low cost clinics which provide instruction of correct basics for lower level riders and their horses. The Kudzu Klinics are made possible by the generous work of professional trainers who volunteer their time and barn owners who donate their facilities for the day. The rider fee goes toward supporting the work of GDCTA.

The clinic format may vary slightly with each clinic, but generally for dressage clinics there will be 5-7 sessions with 1-2 riders per session. Lunch-time Lectures may be given at the clinics. Auditors may sign up at the clinic, but pre-registration would be appreciated so that the lecturer can bring enough material for all participants.

Bring your own lunch, drinks and chair for the lecture.

To Reserve your place in this clinic, please complete the following and mail to address below:
